Comedian Says Charge Was convenience. "Publicity Stunt"

NEW YORK, June 27.—The grand EVEN CAREFUL jury today exonerated Frank Tinney, Broadway's blackfaced raveman, of charges made by Imogene Wilson of Follies fame, "that Tinney had knocked me cold."

Tinney had been held for the grand jury after a hearing befr-e Magistrate Levine.

The comedian appeared before the grand jury and testified after waiving

Assault Charges Made He appeared just after the Follies girl had told her story of what went on in her West Hide apartment on May 28. Miss Wilson claimed Tinner appeared, robed in her dressing gown and maid's ear rings and started a Dempsey-like usequit.

After Tinney had been exonerated. Miss Wilson refused to talk. Tinney was buoyent as he bounced into the press room and attempted to "pull" his famous lines. Not a chuckle, so he gave out the sover statement: That is what they should have ione. Something must be done about

these glorified girls who try to break up the American homes. The trouble of this case is that it was a publicity stunt." FOOT AND MOUTH

Many millionaires attend directors meetings just to get the \$5 goldplede that is naid for attendance.

We smile at the man who wastes \$10 of time trying to recover a lost \$1. And yet we all do the same

thing in principle. We continue to use worn-out devices long after they become more expensive than new devices. For many a farmer-rather than buy a new faucet for his out barrel—uses the leaking old faucet He collects the drippings in a tin can-but by evaporation loses every few weeks more than the cost of a new innect.

# DEMOCRATS NEED A REAL 'BOSS' TO COPE WITH BUTH FD'S CENTRE

William M. Butler of Massachusetts is the new chairman of the republican national committee. He is a product of New England, finished to all intents and purposes, an able lawyer, a successful business man and is said to be one of the best organizers in America.

Now the editors and politicians who are not republicans are parading Butler as Boss Butler. Why not Boss Cordell Hull? There must be political bosses, Republicans have them, Democrats have them, prohibitionists have them, organized capital has them, organized labor has them, and the religious denominations have them.

No man can become a great political boss unless he is a great organizer and a leader of his fellows. Butler is the life-long friend of President Coolidge. He speaks for the big business of New England.

There must be big business or there wouldn't be work for those who toil for the wage. There must be organizers of great Here's an interesting experiment in industrial corporations or the raw materials of America could not be consumed.

Attempt Extension of Sidewalks to Washington

By PERCY B. SCOTT

U. P. Staff Correspondent NEW WORK, June 27,—Having staged their "show," the managers of Governor Alfred E. Smith's campaign for the democratic presidential nomination went to work again today to bring to fruition their plan of ex-tending the sidewalks of New York to Washington.

Confident that William G. McAde is beaten, and equally confident that they have sufficient votes to nominate their candiate, the Smith men today claimed the empire state governor would "go over on the tenth ballot."

Enthusiastic Over Lead They were enthusiastic over their first skiemish with the forces of the Californian late yesterday in wheh they forced an adjournment to today when the westerner and his backer wanted a night session. As a result of this showdown, the New Yorkers are claiming that it strengthened their forces in a moral way materially, and more many of the policemental actually it brought to their event force for the policemental actually it brought to their event force for standard a majority of the Connecticutt delegation which has heretofore been conceded to McAdoo.

Actually the fight was between the McAdoo group on the one side and all the anti-McAdoo men on the other, but it was engineered and captained by the New Yorkers.

The governor planned to keep in touch with the convention by tele- northern boroughs. phone today. Suffering from an intestinal trouble. Smith was not at his headquarters during the morning and planned to direct his forces from his suite in the Hotel Biltmore.

The sons of Louis fought over the lands in this empire. Finally they made an agreement called the Trenty of Verdun. This was one of the most important treaties ever made. It prorided that:: One son should have France.

One son should have Germany. One son should have Italy and land between France and Germany.

In years after that, one king or another tried to get those countries

together again, but never succeeded for a very long time. I do not wish you to suppose that Germany and Italy became much like the countries of today. Time and

again they were split up. The pope of Rome claimed part of the land of linly, and some more of it was seized by Northmen.

Germany was made up of many little parts. Most of the time the

parts were not closely united.
France, on the other hand, came to be almost the same as it was before the world war. One king of France gave away part.

of the country to the Normans, but it was supposed to centain under the power of the French. After William the Conqueror be-

came the king of England, he still kept Normandy. Thus he was king of one country and a subject of the Charles the Great had ruled over (Copressit, John F. Dille Co.)

#### ANNOUNCEMENT!

fact that the great majority of the people of the District know me and know of my public service.

I had entered the race, believing that since I had seen public pervice in the State Senate, and the present Congressman had served for three terms in Congress, that we would get together and make the District in the old time way by making stump speeches,

I have always felt like any candidate running for a representative office, representing the people directly, should announce his policies from the stump and give the voters a chance to study his position so they could decide who would make them the best officer. But the people of this District will be denied the privilege of hearing

heir candidates for Congress, meet in joint discussion, concerning the National issues that are before the American people today, Mr. Hor has refused to meet me on the commons, and discuss with the people, the issues confronting America today and unless he changes his mind there will be no joint discussions. Mr. Box is making his campaign by sending out campaign speeches

over the Government printing press label and using the mails for free transportation in getting his speeches to the people. He is also advertising what different newspapers say about him and some endorsements be has. He is also sending out advertisements complaining because some one has doubted if it is a good example for officers to print their compaign speeches on a Government printing press and impose them on the mails without paying for them.

I want to "be fair" in discussing all issues before the people but since he and his secretary have been drawing more than \$10,000.00 per year, making a sum of more than \$00,000.90 he will have taken from the Federal Treasury during his air years of service, I feel that it is stretching the privilege at this time to cover the District with his compaign speeches at Government expense, I have met three of those speeches sent out at Government expense, and don't know how many more will come, and since I do not enjoy that privilege I will have to be content by making my announcement, and making speeches, sending out my campaign literature at my own expense.

But I am tied to the proposition that this is a Government by the people, and to be a real good Democrat, in my mind, is to go to the people and discuss with them governmental affairs. I have not sought any endorsements before starting in the campaign. I am sure I could have secured them from several countles, and while I appreciate every newspaper that is supporting me, just like I do every individual, I, want to know all the people, and regardless of who disagrees with me, I think the best way to make a campaign is to go talk to the voters and get better acquainted with them, and learn their wants and give them chance to measure one's ability.

Mr. Hox has advertised several newspapers as being for him, among them, our of the Nacogoloches papers hence, I am going to quote a sentence from the only two Nacogoloches papers printed: "and having worked so faithfully and so conscientiously for Nacogoloches County be (Senator Cousins) now has a right to expect our hearty support in his campaign for Congress."-Nacogdoches Herald, June 10, 1924. The following sentence was printed by the Nacogdocher-Sentinel on June 13: "The people of Nacogdoches County and of East Texas, especially those interested in educational progress, feel that they owe Mr. Cousins a rather heavy debt of gratitude."—Nacogdoches Sentinel. The Center Champion, which is supporting me has the following to say: "Although elected to the State Senate from another District, Senator Cousins has es of distinct service to his old home town during his tenure of office and his splendid record has been a source of pride to his many friends. Senator Cousins is gaining strength all the time and is practically certain of carrying this county and those adjoining."—Center Champion. The Lufkin News, Angelina County, says, "As a State Senator from the Benumont District for several years Senator Cousins distinguished himself for his energy, honesty and devotion to the interest of the people who had honored him. He has never been found nanting in public trust her as a faithful servant of the people."-Lufkin News.

Hemphill Reporter, Hemphill, says: "Senator Cousins is a real East

Texas man, four square and a good lawyer. He made a good Senator and will make a good Congressman. We are for him and know when he is elected the working class will have a friend in him and the farmer will have a congressman who will understand their conditions and he will do all in his power to help them."—Hemphill Reporter.

The Newton News says: "We have watched Itoy in politics before, as well as in private life, and the longer we know him the more we poreciale him."-Newton Nens. Other papers are supporting me that I have no editorial to copy from like the Carthage papers, the Huntington paper, the Woodville

paper and the Heriew in Harrison county, the Cushing local News. If it comes to the press of the country I feel sure I am is the mafority but it is not to the press or any one bunch of people the election does and should depend on every voter. I think that is democracy and I am seeking to carry my message to all the people. And since Mr. Box does not care to discuss our different records on the stump, which should be done in a dignified manner, I will review my own service record as a State Senator.

I have always been strong for East Texas and have promoted the subject of educational progress from the little red school house on the hill to the building of the first State School that was ever built in the

The Rusk Insane Asylum bears my name as its author, as does the \$3,000,000.00 Free School Appropriation Bill of a little more than a year ago. I have been for law enforcement and have tried to improve the condition of the officers, whose duty it is to enforce the law, I have opposed centralization when it was not absolutely necessary and believe we are making a mintake every time we transfer a State Right to the Federal Government, unless it is a condition that the State can not cope with. I think the members of the Legislature will concede that I have done more to hold down unreasonable taxes than any man in the Legislature during my last years of, service there. When the Legislature was trying to impose unreasonable taxation on the people. I gave out an interview that was published throughout Texas, that our State had money enough to operate on and my prediction came true.

I have never tried to array one class of citizens against another. I have always realized that taxation is borne by the consumer and whether it is direct or indirect, the man on the bottom step always, pays the bill. I opposed the Special Taxes, like those on timber and oil and I have taken the position that as long as Capital was doing right it deserved a square deal, I think that the State and Nation should treat Industry, right and encourage rather than discourage

Yet I believe the working man, with his dinner bucket on his arm, and who spends his nighty at home with his wife and bubies, is the greatest safeguard to this country. Labor was first in the beginning and labor should remain first. And as has been the history of this country, whenever the pinch comes, the working mun, with his brawn;

muscles, is the backbone of this country. I feel that my position in opposing some of the unreasonable Tax Laws will bely the cut-over-land-section more than they could have been beloed in any other way. I appreciate the fact that the Magnolia Petroleum Company is building a gas line from the gas fields of Harrison County to Beaumont. They will build booster stations and houses along the way and give us something to tax so we can run our achools and build our roads. While with an unreasonable tax law that same pipe line would have traversed West Louisians instead of East Texas. The pipe line will bring gas from Louisiana fields to Benument, Texas, give Texas people jobs and give us more property to tax to support

And as I stated in the beginning, Mr. Box, with his Secretary will bave drawn more than \$60,000,00 from the Federal Treasury for his services and I have drawn the sum of \$5.00 a day and \$2.00 a tlay while in actual service and if my ability equals Mr. Box's and my record is as good as Mr. Box's for constructive legislation, or for representing the interest of all the people, then as we have a system of promotion in this country where a man makes good, I ask you to give me that promotion.
